EDUCATION

Gunderson High School
San Jose, CA
High School
2023-Present

Silicon Valley Career Technical Education (SVCTE)
San Jose, CA
Mechatronic Engineering Program
2025-2026

ACADEMICS

Unweighted GPA: 4.0
weighted GPA: 4.4

Intended Major: Computer Engineering or Mechanical Engineering

HONORS

Superintendent's Honor Roll:
9th -11th

Royal Conservatory of Music piano certificates, level 8; practical and theory

SKILLS

Programming & Tools: learned: Python, C++, HTML. Additional ones using with Cursor

Engineering: CAD in Fusion360, 3D printing, soldering, circuit design, microcontroller programming

INTERESTS

Robotics, music composition, piano, drums, track and field

EXPERIENCE

Engineering Intern
Summer 2026 (6 weeks)

Rincell Corporation| Fremont, CA

- Designed and built a working rig that measures jellyroll diameter and weighs silicon-graphite Li-ion cells
- Modeled the rig in CAD with real components, ran simulations, and iterated on the design. Soldered electronics, programmed ESP board and wrote software for writing data to spreadsheet on computer
- Designed and built a customized electronics enclosure
- Logged measurement data to a spreadsheet and supported R&D studies alongside company engineers on usability

Freelance Web Developer
Present

Excel Lawn Service | San Jose, CA

- First business maintaining a small company site with customer and admin portals, scheduling, database management, feature building, and Stripe payments

PROJECTS

Kinetic Clock Builder

SVCTE Mechatronic Engineering | San Jose, CA

- Built a 30-servo actuated segment wall clock with Arduino, two PCA9685 boards, Wi-Fi time sync, and web control
- A LIDAR rover that can drive semi-autonomously. Uses a Raspberry pi, a custom dashboard, and used ROS2

Designer and Builder
Present

Independent Engineering Projects | San Jose, CA

- Built a gyroscope-stabilized servo gimbal using Arduino and accelerometer/gyroscope and a 3D casing
- Built a motion detection alarm clock with arduino and a PIR sensor

Websites/web apps

- **Grove:** a basic ToDo list application testing building for mobile and websites
- **TaskItConsole:** An all in one productivity tool made for daily journaling and task management
- **Signyl:** a custom email app made to play around with Jev AI model and new design styles

LEADERSHIP

President
2024 to Present

Gunderson Robotics Club (FIRST Tech Challenge) | San Jose, CA

- President of first FTC robotics team;
- Led preparation for the FIRST Tech Challenge season (San Antonio Center | Mountain View Qualifier Tournament, additional private competitions)

Student Advocate
November 9 -10, 2025

CALC (California Advocacy Leadership Conference) | Sacramento, CA

- Joined program for a year and met with California legislators to request STEM and CTE funding for Title I schools like Gunderson at the Capitol in Sacramento

VOLUNTEER

Volunteer Builder

CityTeam

- Helped build transitional housing for single mothers and their children

Worship Team Musician

Valley Church

- Active member of worship team, playing the piano and drums

Children's program Volunteer

Valley Church

- Volunteered in music team for weekly children's program
